

RIGGING BLOCK

The DDIN DNRB-6 sets a new standard for Rigging Blocks. This block's double-raced bearings and precision-machined parts reduce side-to-side play. With a Working Load Limit of 5,000 lbs. (at a 5:1 design factor), this block is ASME B30 Compliant.

Each block is proof tested and serialized for traceability. Once you use this rigging block, you won't want to use any other!

- *The Gold Standard* in Rigging Blocks
- Double-raced bearings packed with synthetic aviation grease
- Precision machined components reduce side-to-side play
- Safety Factor: 5:1

PART #	SHEAVE	ROPE CAPACITY	WLL	WEIGHT
